Welcome!

We come from different places with different stories.

We celebrate the diversity of our human family and the unity of our call to love and justice.

Different is not less.

We believe in the inherent worth and beauty of all people.

> *"Salvage Garden incarnates a genuine sense of hospitality and support to people who come from a wide variety of backgrounds. I appreciate the life lessons the Salvage Garden community provides me. I am challenged in a safe, comfortable environment to learn about and support people very different from me in sexuality, cultural background, and ability. Salvage Garden truly embodies an inclusive, compassionate reaching out to those who are viewed as the least of these in the eyes of the world."*

The Beyond Series

We’re connecting and growing beyond in-person gatherings and we’re collaborating with faith communities throughout the United States! Every few months, a new Beyond Series! Colors of Hope Beyond Red & Blue was a series of conversations for people of faith who want to challenge polarization and bridge difference. This original six-week series explored embodied social justice with an emphasis on creating harmony in this season of life. Embodied social justice? Harmony? Hope? **Learn More (https://salvagegarden.org/sensory-worship)**
