Fab City Awards 2025

Theme.

Fab City Awards 2025 centered on climate action driven from the ground up. The edition recognized initiatives that respond to the climate crisis through community-led action, circular and sustainable technologies, and the regeneration of ecosystems and biodiversity.

55 projects from Africa, Asia, Latin America, North America and Europe

Awarded Projects

Overall Winner

Kovai BSF

KOVAI BSF tackles two big problems at once: organic waste and food security. The project uses Black Soldier Fly larvae to convert agricultural waste into high-quality protein for animal feed, …
